

Agnes O'Neill 20 H 269 is a
porter de 'sent C.P. It is
set in type, which is direct as he
had used a type setting. If
what is not common was
there true Port J.-C. S. has
such facilities, she would not
have used them without attracting
attention & note it all is
machine ~~set~~ set whether a
not J.-C. S. hand type-
setting facilities

Agent Oswald:

Reuman notes (2945) that -
LHP offered his ~~services~~ services to
the Hall - Davis Reuman
Committee ~~and~~ at just
the time that that was
beginning, without attributing
any significance to this in
connection with possible
federal interest

Check man notes to see what
was paid with him at 1026,
what at Paris
See Reuman 296

~~That~~ ^{That} month he paid State Dept
\$190 on his loan (Rpt Hq 14)
OK

and next month \$206.00

On that salary?
Even if he could live with
his needs & wants, why would
he have so stopped himself
on that income?
